

# Future Cover Page

## Future cover page

Invite the participants to look into the successful future of the team/company. If necessary, form small groups and let them develop a future cover page:

- What does the success look like?
- What is on the cover page?
- What is the headline?

Use pens and craft supplies, pin boards/flipcharts to make visuals. After short presentation, let the participants derive in reverse how they came to this success and what they achieved along the way. Finally, derive the best next step from today's perspective.

#Visualisation #Future #Strengths

Duration: 30-60 minutes

Participants: 8-40

### Purpose of the exercise:

- Direct a team's focus on what is possible for them to achieve
- Encourages teams to „think big“

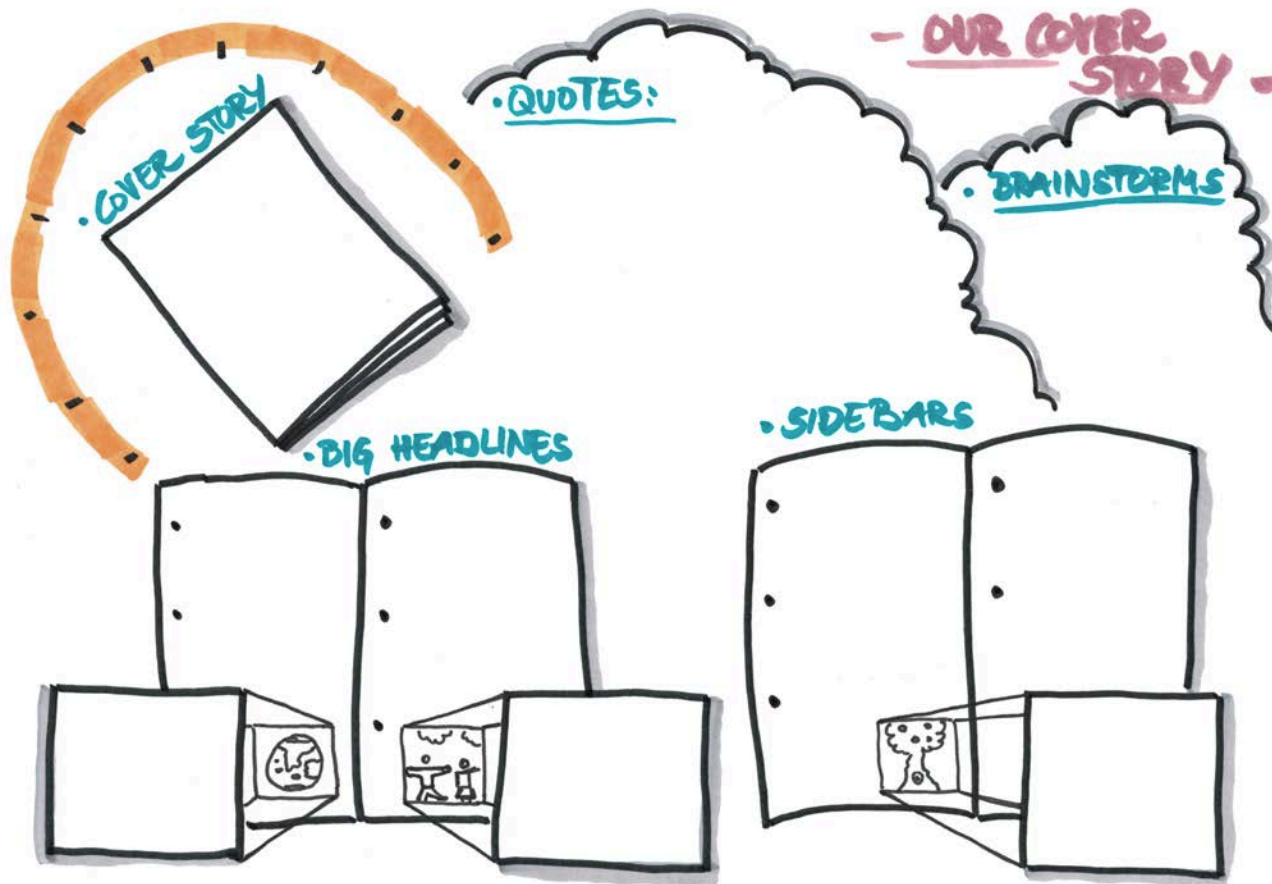

### When to use:

- Development of a strategy or vision
- If a team wants to improve impact and performance
- New team or project kick off

### How to use:

- Prepare a flip chart or pin board with the template
- Ask people to have a discussion first before starting to fill in the template or use sticky notes
- If working in several small groups, make a gallery walk after all groups have finished their cover page
- Let the group define next step to realize this vision for their team
- For virtual workshops: use a tool like miro or concept board
